Our teachers implement the South Carolina College and Career Ready Standards. They analyze multiple data sources including MAP, SCReady, SCPASS, and classroom assessments. The teachers design their instruction based on student and instructional strengths and weaknesses found in data.

This year, teachers in grades K-3 and special education are participating in LETRS training. LETRS provides knowledge and tools that teachers can use within their programs of reading instruction. In math, teachers are improving math instruction through collaborative planning and unit design.

Partnering with parents in the education of children is important to everyone at West End. We work to provide educational opportunities for parents during the school day, after school, and off campus. Our family liaison works with families who struggle due to inadequate resources.
