

# South Fant School of Early Education

## Annual School Summary Report 2021-2022

### **Mission Statement**

At South Fant School of Early Education our mission is that we are committed to working together to guarantee high quality school programs to serve the needs of all children. The spotlight of our program is to promote developmentally appropriate learning through love, respect, diversity, self-esteem, and quality in order to prepare children for the future.

### **Our Approach**

The first five years of life are the most important for a child to learn and develop good habits. There is no "magic age" at which every child learns to do things. Each child's pace of development is unique. However, as your child's first teacher . . . and his/her most important one . . . you can help your child achieve his/her potential.

### **School Improvement Council**

The School Improvement Council at South Fant School of Early Education has prepared the Summary Report for you and all community members who share an interest in South Fant School of Early Education. This report shows our progress towards achieving school goals.

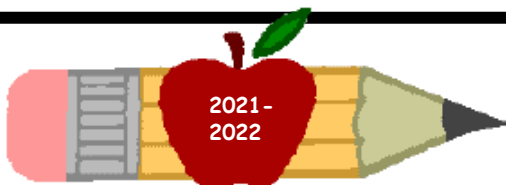

We are very proud of our students' accomplishments and the support you and the community provide.
