

# South Fant School of Early Education

## Annual School Summary Report 2014-2015

### Our Approach

The first five years of life are the most important for a child to learn and develop good habits. There is no "magic age" at which every child learns to do things. Each child's pace of development is unique. However, as your child's first teacher . . . and his/her most important one . . . you can help your child achieve his/her potential.
