Purpose of the Report

This report is issued by Jesse S. Bobo Elementary School Improvement Council in accordance with South Carolina law to share information on the school's progress in meeting various goals and objectives, the work of the SIC, and other accomplishments during the school year.

SIC Annual Goals for the 2021-2022 School Year

Goal 1: Increase parental involvement and engagement within the school

This year we have worked on this goal by providing families with numerous opportunities to learn and grow with their students virtually. Listed below are several ways that families have been involved/engaged in our school or can be involved/engaged in our school culture and climate.

- School Improvement Council
- Parent Teacher Organization
- Family Engagement Events like Holiday Fest and Read 2 Me
- Parent involvement in arts education
- Celebration Days

Goal 2: Maintain a Healthy and Safe School

We continue to host breakfast, lunch and our dinner program each day at our school. A healthy snack each week is provided for students too through a healthy initiative grant. We believe in providing a safe and healthy environment so that our students can learn and grow to their full potential. Our school continues to provide PE to students each week for 60 minutes of health and fitness classes as well as 30 minutes of recess a day. These programs will encourage our students to make healthy lifestyle choices for years to come.

Goal 3: Increase parental communication from school to home and home to school

There are several forms of communication that we have in place for our families. These include: parent/teacher conferences, teacher newsletters, Friday Folders, school webpage, parent/student handbook & calendar, PowerSchool, Class Dojo, the Principal's Weekly for the Week, MTSS newsletter, literacy coach newsletters, QR codes with instructional videos, continuous improvement coach newsletters, Facebook, and more. We, as a team, would also like to look into ways of increased communication with families about our students and reporting school, grade level and individual student goals. To begin this goal idea, we have included our i-Ready reading results to communicate the great growth we have seen from our students this school year! As we continue to use all the forms of communication above, we also strive to increase our communication further and we are always welcome to suggestions.
