Mission Statement:

We are ONE TEAM

Succeeding Together!

FROM THE SCHOOL IMPROVEMENT COUNCIL

The BEMS School Improvement Council (SIC) exists to serve the BEMS faculty and administration in an advisory role, bringing together parents, educators, and community members for the purpose of improving our school. We can only succeed with your help. Research proves that parent involvement and the quality of a school are directly related.

BEMS continues to grow academically by refining the instructional model through data-driven decision making and targeted professional development. High progress literacy classrooms and integrating technology continue to be a focus for our school. With the continued support of our local community and our SIC, BEMS strives to move every student towards the Profile of the SC Graduate.
