High School

At Union County High School teachers promote, creativity, innovation, problem-solving, and team work through projects, science labs, the College and Career Ready Writers Program and participation in High Schools That Work. We partner with three local colleges and universities---University of South Carolina Union, Spartanburg Community College, and Winthrop University ---to offer dual credit courses. Eight Advanced Placement courses are also offered to provide the opportunity for earning college credits. Students also may explore career and vocational options through our partnership with the Union County CATE Center, with whom we share a campus.
