

*Jonesville  
Elementary/  
Middle School*

Jonesville Elementary, a Title I school and Jonesville Middle School serve approximately 580 students from 4 year old Kindergarten through 8<sup>th</sup> grade. The philosophy of our school is the belief that all students can learn. The school's overall goal is to provide the best quality education for all students. A close relationship exists between the school and community, both of whom share high expectations for all students. The school's motto, "One Mission, One Family: To create the best quality education for all students," is supported daily by parents, visitors, students, faculty, and staff. Due to the school year taking an unexpected turn in March 2020 with the Covid-19 Pandemic, our data is very limited for this school year. While this time was an experience like no other, our students, teachers, parents, and members of the community persevered and we are making it through these trying times. We learned the importance of technology, collaboration, communication, and teamwork. We would not have been able to get through this time without these World Class Skills. Through the hard work and dedication of our students, parents, community members, faculty and staff, Jonesville Elementary Middle School continues to strive for excellence.

Union County Schools and its stakeholders commit to **students first** in building community, excellence, and lifelong learning.

**School – Wide Emphasis**

- Accommodate all learning styles (Guided Reading & Math Groups)
- Continuation of Title I Parent & Family Events
- Provide opportunities for Career Education
