Sullivan Middle School is a Middle Years International Baccalaureate Program School in Rock Hill Schools, located in Rock Hill, South Carolina. We pride ourselves on providing an education that goes beyond the standards of academics.

We are preparing our students to be leaders of the future. We strive to build relationships first through the IB Learner Profile Qualities: Caring, Reflective, Principled, Communicators, Inquirers, Open-Minded, Risk-Taker, Knowledgeable, Thinkers, and Balanced. We are building changemakers in the world.

Sullivan teachers are trained as nationally recognized International Baccalaureate Educators, which encourages them to be a voice in the field of education. We offer a unique combination of IB and Dual Language Immersion (French & Spanish).

Sullivan Middle School provides a safe learning environment in which faculty and families support and encourage lifelong learning to foster physical, emotional, intellectual and social growth, inspiring students to be responsible and productive citizens of the world.

GOALS FOR 2022-2023

GOAL 1. Improve Teacher and Staff Climate through Family and Community Encouragement.

This is an extension of the 2021-2022 goal relating to the climate of the school. This year it is a challenge still to help students adjust to the more “normal” way of a school day, it’s rhythms, and rules.

Goal 1 Actions

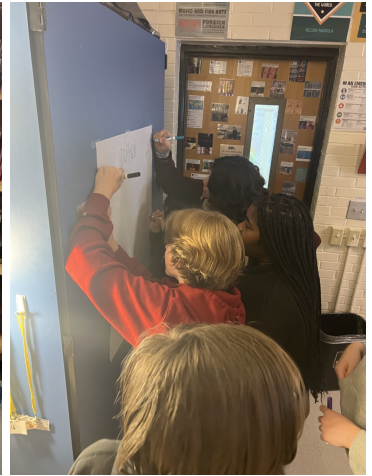

- * The SIC worked with school partner Oakland Baptist Church to provide birthday gifts for teachers.
- * The administration focused on the needs of the teachers individually.
- * The SIC worked with the PTO to create activities to foster a positive work environment.
- * International teachers were given support from experienced teachers on classroom management.

- * The SIC continued their partnership with Oakland Baptist Church providing teachers with birthday gifts, snacks, meals, and more.

GOAL 2. Improve Student Mental, Emotional, and Academic Health through Family and Community Support

Students at Sullivan Middle School need and want support in all these areas to be a successful student. Basic needs emotionally and physically are important for a safe and happy learning environment. This starts at home and continues throughout their day.

Goal 2 Actions

- * The SIC encouraged the administration to bring in volunteers and mentors for the students which led to an afterschool fully funded program in Quarter 4 for students that need extra help in an academic area.
- * The SIC created a sign-up genius to be used to bring in more volunteers to help teachers and students, but due to school restrictions this was not sent out to parents and potential volunteers.
