

Ebinport Elementary Report to the Parents 2021-2022

SIC Chair: Jessica Adamson

Ebinport, in partnership with our School Improvement Council, recognizes that we are the refuge of life for many students, and that is only achieved by treating students as individuals with their own thoughts, feelings, ideas, and emotions. The reality is we take the time to know children on a personal level and help guide them through productive struggle that builds resilience and independence preparing them to embody the profile of a South Carolina graduate. Your SIC works diligently to ensure we adhere to this commitment in a variety of ways.

Health and Safety First!

Did you know, Ebinport SIC remains committed to the health and safety of all students by supporting the 5-2-1-0 initiative, the sensory garden, and was an integral support in expanding the school zone for the safety of all?

Family Newsletter

Members of Ebinport SIC, in partnership with the Carolina's Center for Family Engagement, continue to disseminate a monthly newsletter to families that includes upcoming Eagle encounters, leading your learners, and free family and community resources. This newsletter is available in English and Spanish.

Sensory Garden

Ebinport SIC continues to support the development of a sensory garden, with the help of Dr. David Keely and Master Gardeners of York County.

Health and Wellness

This year, Ebinport added two new water filling stations bringing our building total up to four. We dedicated funds and resources to making sure every child has access to water all day long by providing every child a water bottle and continuing to make sure children experience health and wellness in new and exciting ways.

Partnerships

Ebinport fostered numerous partnerships this year. This includes being a partner school with Winthrop University. Ebinport's SIC and Ebinport's PTO partnered on numerous initiatives in keeping with our desire to model cooperation among stakeholders.
