

## Our Beliefs:

Beliefs are the values that guide our activities. Every person involved in the educational process of each child will perform services to each child supporting these beliefs:

We believe...

- All individuals need to be treated with dignity, love, and respect.
- Everybody can learn.
- Learning is a continuous and life-long process.
- The prosperity of our nation depends on our ability to tap and protect all of our resources.
- Challenge and success are essential to growth.
- Attitude has a greater influence on success than aptitude.
- Cultural diversity contributes to an enriched society.
- Educating an individual takes everybody, beginning with the family.
- Self-discipline and individual responsibility are essential.

Dr. Brian Newsome,  
Principal

## Our Mission:

**The Mission of Williston-Elko High School, with the support of families and the community, is to develop caring and productive citizens by providing challenging and enriching experiences in a safe environment.**
