

Mount Lebanon Elementary School

2020-2021 Report to the Parents

In the fall of 2020, Mount Lebanon completed the re-certification process through Cognia (formerly AdvancED) and was once again recognized as a STEM-Certified School!

As a result of the global pandemic, the safety and well-being of our students and staff was our primary objective this school year. Countless protocols and precautions were put into place including increased cleaning practices, mask-wearing, social distancing, and adjusting daily schedules.
