- Macy's
- Michelin North America
- ROOTS
- Roper Mountain Science Center
- Vulcan Materials
- Wal-Mart

## Principal's Message

Our beautiful magnet school of math and science is a unique blend of the innovative use of math, science, and technology along with enrichment activities in language arts, social studies, music, art, and physical education. We are rich in technology and environmental studies. We pride ourselves that our main emphasis, in addition to raising the bar academically, is to nurture your children in a safe and caring environment. By working together as a team, your child will succeed.

Nancy Brantley, Principal

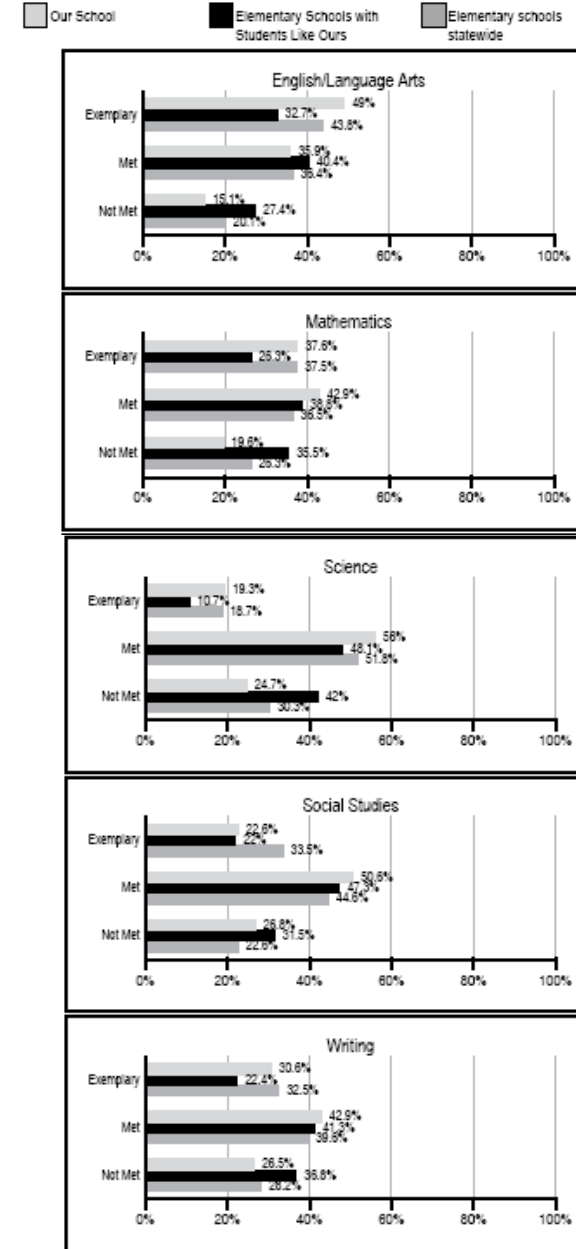

South Carolina Department of Education

Together, we can.

The Palmetto Assessment of State Standards (PASS) was given to 3<sup>rd</sup> – 5<sup>th</sup> grade students in the spring of 2013. The test measures the progress of English/Language Arts, Math, Science, and Social Studies. The results are reported as Not Met, Met, or Exemplary. The results are as follows:

**ESEA/Federal Accountability Rating System**  
**95.0 % = A Rating**  
**Absolute Rating = Good**

## PASS PERFORMANCE

**ENSA: Where Inquiry and Achievement All Add Up!**
