

BECK INTERNATIONAL ACADEMY

Report to the Community April 2021

BECK INTERNATIONAL ACADEMY MISSION STATEMENT

The mission of Beck Academy is to meet the academic needs of our culturally diverse student body in a safe environment that nurtures, accepts and encourages all students to be productive citizens of the global community, lifelong learners and future leaders.

ADMINISTRATION

Principal– Jennifer Meisten

Assistant Principals: Sheila Green

Brittany Jackson

Glenn McAtee

SCHOOL PROFILE

Beck Academy is located in the heart of Greenville County and currently serves 830 students. We serve a diverse student population with students from over 25 elementary schools. Our school wide magnet program focuses on International Relations and Public Service. We have students from 22 countries who speak over 18 different languages. Our students take part in a rigorous academic curriculum, offering high school credit classes in Math, English, Foreign Language, and Computer Science. Students can also select a variety of related art offerings including drama, chorus, band, strings, computer technology, art, Gateway to Technology and Lead Worthy. With a strong emphasis on building an inclusive community, our adaptive classes offer students the opportunity to serve as peer buddies in art and PE. We have been redesignated as a National School To Watch by the National Forum to Accelerate Middle Grades. We are also a Special Olympics Unified School as well as a National Showcase School for Capturing Kids Hearts. Every year our school hosts a student-led International Festival featuring the customs, culture, traditions, foods and favorite pastimes of various countries. As part of our international focus, Beck students have the opportunity to take a foreign language all three years.

At Beck, we believe that the development of the whole child is just as critical as their academic development. Our school counselors are located on the grade level hallways and students participate in lessons focused on social emotional well being. All students are encouraged to volunteer in the community and our Student Council selects a different non-profit organization each month for fundraising.

This year our Student Council partnered with our Special Education teachers to raise funds to build an inclusive playground. We are excited that our playground has been completed and will be dedicated on behalf of a former Beck student, Elizabeth, who passed away in 2021.

Outstanding Programs and Features

- ◆ National School to Watch
- ◆ High School Credit Classes including Algebra I Honors, English I Honors, Geometry Honors, Spanish I, Spanish II, Google Apps, Band Honors, Strings Honors, Chorus Honors, and Computer Science

- ◆ Afterschool Clubs and Activities

Students in a class hosted “Friendsgiving” to show their teachers appreciation.

7th grade ELA teachers working with students during a simulation activity.

6th grade counselor helping a student with organization.

- ◆ As a school, we will continue to foster a student focused learning environment that allows all students to achieve their maximum potential.
- ◆ For the last two years, Beck has been implementing a school wide initiative, Capturing Kids Hearts, which has a heavy focus on building relationships between students and school faculty.
- ◆ Teachers participate in collaborative small group planning sessions and review individual student data to ensure that all students are making progress. In addition, to ensure student progress, teachers also utilize common assessment tools in all academic areas.
- ◆ Although academics are a strong focus, students’ social and emotional needs are vital to students’ success. In order to achieve this, Beck has grade level appointed administrators, counselors, and special education teachers located on the grade level halls. This supports the whole child.
- ◆ Teachers continue professional development that focuses on effective and meaningful integration of technology in the classroom. This aligns with our one to one initiative, which assist students’ use of personal chromebooks in the classroom and home. We also house a student led Chrome Depot on campus that allows students to support their peers with technology tips and troubleshooting.
