A Word from our Principal, Robert Candillo

New Providence Elementary continues to empower each child to design the future with ongoing opportunities to learn and grow, utilizing numerous resources. Our model classrooms engage students through movement and strategies that promote both collaboration and critical thinking. PTA has provided funds to purchase books for classroom libraries, equipment for making posters, new furniture in the Learning Commons and new books to further enhance the age of our library collection. The continued implementation of *Code to the Future*, with a focus on content integration, has continued to be very successful for our students and well received by all stakeholders. We have also had a successful third year as a computer science immersion school. EPIC Build showcases have given us the opportunity to invite various audiences, including community members, to witness the amazing accomplishments developed by our students. What an exciting future this program will continue to offer!

There are so many great things happening at New Providence Elementary School every day! We are excited about all of the opportunities our students have to demonstrate success as they prepare for a successful future. We encourage all of our school family to serve as members of our PTA, School Improvement Council, PAWS Mentor program, and attend meetings and celebrations across the school year. Together we are building a bright future for our amazing students!
