

## Mission Statement

The Mission of Saint Paul Elementary School is to educate our children in a safe and nurturing environment.

## Beliefs

- We believe the primary focus of our school is to promote learning.
- We believe all students can learn.
- We believe a variety of instructional opportunities ensure learning for each child.
- We believe the curriculum should be integrated and include the use of technology.
- We believe teachers, parents, the community, and business partners, should work together for the total education of our students.
- We believe the family is a key component in a student's life long learning process.

## Goals for 2015/2016

- Increase the number of books students are reading in grades 3rd-6th.
- Increase student achievement in English Language Arts, Mathematics, Science, and Social Studies.
- Increase student attendance rate.

## Response to Intervention

The purpose of Response to Intervention is to provide all students with the best opportunity to succeed in schools, identify students that need further assistance and ensure that students receive appropriate instruction and support.

- A school wide multi-level instructional system for preventing school failure
- A focus on literacy that is research based

## School Environment

- Teachers attended an array of professional developments including site-based study groups to increase students independent reading performance.
- Teachers collaborate with representatives from the Achieve 3000 leveled reading program. Teachers participate in on-going professional development through the Continuous Improvement Model for Instruction.
