Whale Branch Early College High School...Where Learning is Top Priority and Failure is Not An Option

Report to the Parents

We would like to say thank you to our parents and community for supporting our school. It has been a great honor and privilege to work with you. This great opportunity made this school year a wonderful learning experience for us all.

The goal of our SIC is to involve staff, parents and community members in our school. We have worked to enhance communication, parental involvement and identify ways we can work together to improve student achievement. Student learning is enhanced when the entire community work together to improve educating our children.

When parents, students, teachers and community unite to provide a quality education for all students, a true spirit of collaboration, trust and shared decision-making becomes the best ingredients for of our students.

It is the opinion of the SIC that WBECHS becomes a model school for the entire State of South Carolina. The past 4 years have been successful. Our school administration and staff have made great strides in creating a safe and caring environment that enhances our students' learning and have created an atmosphere that encourages parental and community involvement.

Academically, our students have soared above many obstacles. The overall GPA of our student athletics has also improved. We are very proud of the academic focus of our students.

Athletically, our student athletics have shown amazing growth.

On behalf of our School Improvement Council, we would like to say thank you. Your support for the committee, the principal, staff and our students is most appreciated and will continue to be needed. We solicit your support. Your wisdom and input are essential. Let's continue to work together to make WBECHS the best learning environment in the state!!!!
