OSHA 10 Certification

The purpose of this Report to the Parents is to give an update on the performance and progress being made toward the school's improvement goals. In this report, we have provided brief goals, programs, activities, achievements, and awards that were earned by our students.

School Goals

- ◆ To increase the number of completers according to the state of South Carolina CTE requirements.
- ◆ To increase the number of completing students who receive Career Ready status by achieving a certification in their Career Pathway.

Student Opportunities

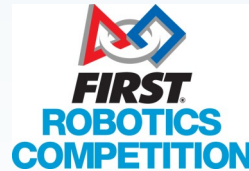

Fairfield Career and Technology Center is a Technology Center's That Work Site.

Southern Regional Education Board

HOSA

FCTC students have the opportunity to participate in several student organizations as an extension of their respective programs. CTSO's help develop students in essential skills such as problem solving, communication, team work and interpersonal skills. They help students gain a positive image through competitive skill events, academic rigor, leadership development and service learning projects. Students who participate in CTSO's serve their communities and state with pride while gaining a competitive edge in the workforce and post-secondary colleges and universities.

News from FCTC

During the 2021-2022 school year, FCTC has partnered with Pure Power Technologies. Pure Power Technologies is an independent supplier of diesel fuel injection systems to OEMs and the aftermarket. Pure Power will be looking to employ students from the electrical, welding and engineering programs located at FCTC.
