Tennis, Lacrosse, Swim

Ensure all Student's Success

EL Education EL Education is modeled to challenge students to think critically and take active roles in their classrooms and communities. An EL school aligns curriculum, instruction, assessment, culture and character, and leadership into a cohesive, clear vision for student learning.	Service Learning In every Expedition, there is a service learning component. This year, sixth grade focused on Special Olympics. They used the design process to create prototypes of adaptable solutions to games competed in during Special Olympics events. Seventh grade students learned about the water crisis in South Sudan. They raised money and planned a 5k to sponsor the building of a well in South Sudan.
STEM Education Using a variety of activity-based learning models, students are provided science, technology, engineering, and mathematics (STEM) opportunities to foster reasoning and critical thinking skills, creativity, and innovation.	World Language World Languages are an important part of the curriculum at MGM. Students experience language learning through performance-based tasks and assessments. We offer Spanish, French, Latin and Chinese (Mandarin).

Service Oriented

Unified PE: 6th grade PE students partner with Special Olympics athletes in building relationships through Collaboration, Communication, and Competition.

Unified Dance: Dance students partner with our exceptional students in building relationships through our habits of success.

Unified Band: This service class was started this school year to build relationships between mainstream students and our exceptional students through the use of song and instruments.

Habits of Success

Meadow Glen Middle School (MGMS) utilizes the Habits of Scholarship report card. This report card communicates students' strengths and challenges regarding the Habits of Scholarship, including:

*Communication

*Collaboration

*Integrity

*Tenacity

*Leadership

Town Hall Meeting/Student Leadership

Students have the privilege of leading these virtual meetings for their grade levels. At these meetings, birthdays are announced, student learning is highlighted, and student accomplishments are celebrated.

Student-Led Conferences and Passages

This is the seventh year that sixth and seventh grade students have conducted student-led conferences with their parents. Eighth grade students lead passage presentations for a panel of community members and teachers. These presentations are a reflection of their learning and goals as they transition from middle school to high school.

ICivics

The ICivics class focuses on government, leadership, and service learning. ICivics makes learning about civic duty and responsibility a priority for all. The mission of ICivics: Helping to create a nation where all young Americans are prepared for active and intelligent citizenship.

University Partnership

MGMS continues to be an innovative partner of the University of South Carolina, Columbia College, and Lander University. The objective is to offer future teachers relevant models that will enrich their college educational experience.

POWER SKILLS

ACCOMPLISHMENTS

- *Dance Team choreography earned First Overall rating
- *Soloist dance students placed top 10 overall ratings
