Titan Students ARE...

Students at Tega Cay Elementary School are recognized for the individuality they possess. While our Titan students may vary in the differences between their reading levels, cultural backgrounds, religious beliefs, and languages spoken, our Titans find value in learning from one another and their diversity.

Titan Teachers ARE...

Teachers use the rigorous state standards in language arts and math daily to ensure our Titans are college and career ready. In addition, our faculty focuses on creating a STEAM rich environment that promotes the 5Cs: Critical Thinking, Creativity, Communication, Collaboration, and Caring.

Our Titan Community IS...

Tega Cay Elementary School has a family atmosphere within our school community. Because of the uniqueness of our location, we are a neighborhood school. Our affords our families with the opportunity to walk or bike to school daily, which helps strengthen our family atmosphere. Another benefit we reap from our location, is the volume of community and family volunteers and visitors we receive daily. The partnership between school and community is at the foundation of our success.
