All about Nexton

Nexton Elementary School is a new elementary school built in 2015 serving 774 students in Pre-Kindergarten through 5th grade. The student population consists of 59% white, 24% African American, 9% Hispanic, and 8% other ethnic groups. 53% of students are currently on free or reduced lunch. Nexton Elementary is located at the epicenter of Charleston's fast growing I-26 corridor at the crossroads of I-26 and 17A in Summerville, SC.

The Nexton community will have more than 10,000 homes and 6 million square feet of commercial space in the upcoming years. The school was built for a 900 student capacity to accommodate the growth in the area. The school is home to a gigafi community where technology is easily accessible and supported. Nexton has over twenty business partners that have supported the one- to -one technology initiative for personalized learning in the classroom through the use of iPads and chrome books. These devices provide a learning tool for students to become college and career ready and allows them to take ownership of their achievement.

The Nexton Community is a place where everything is close to businesses, homes, apartments, shops, and restaurants. They are all connected to each other by parks, trails and nature in historic Summerville.
