### Goals 2022-2023

1. Student Performance: Increase the number of SIOP trained teachers from 66% to 77% during the 2022-2023 school year.
2. School Climate: Track the effectiveness of PBIS and Responsive Classroom using Educator's Handbook.
3. Teacher/Administrator Quality: Disperse and interpret a school-wide survey to determine the areas of need in the school. We will use this data to create goals for the 2023-2024 school year.

## School Choice Options

*-Project Lead the Way (PLTW): PLTW prepares students for careers in math, science, engineering and technology. At RRA, we believe in preparing our students for their future and strive to provide educational options that students are passionate about.*

*-Montessori: Montessori education supports children's natural development and encourages them to develop their creativity, think critically, solve problems and manage their own time. Montessori features mixed-age classrooms, allows students to make individual choices about their research and work, and gives them time for uninterrupted concentration. Montessori students enjoy their learning, so they can better remember what they learn.*

## Educating the Whole Child

*The Responsive Classroom: Responsive Classroom is an evidence-based approach to teaching that focuses on engaging academics, positive community, effective management, and developmental awareness. Responsive Classrooms create safe and joyful learning communities where students develop strong social and academic skills so that every student can thrive.*
