SCES Needs Assessment

- Shoally Creek Elementary will use assessment data to develop and enhance the school's instructional focus in order to increase student achievement as indicated by the MAP (Measures of Academic Progress), SC READY (South Carolina College- and Career- Ready Assessments), and SCPASS (South Carolina Palmetto Assessment of State Standards) tests.
- Expand professional development focus on providing differentiated, personalized learning instruction to meet the various needs of our students by utilizing the best practices of Guided Reading, Guided Math, and Writer's Workshop.
- Implement the District Two EXCEL learning initiative by providing support for teachers as they incorporate one-to-one (3rd & 4th grades) technology to enhance their classroom instruction and student learning.
- Provide a welcoming environment for families and invite them to participate as equal partners in the education of their children.
- Provide parents opportunities to acquire necessary information, knowledge, and skills to support their children's education at home and at school.
- Engage parents as partners in the school so they can participate in supporting school-wide, classroom, and parent involvement activities.
