South Carolina statute (Act 135 of 1993) requires each of the state's local School Improvement Councils (SICs) to publish and distribute a *Report to the Parents* by April 30th of each year highlighting the progress the school is making in achieving the goals and objectives of its five-year School Improvement Plan and the SIC's annual goals. This *Report* is unique to the school and is developed by the SIC with input of the principal to share the challenges and successes of the school, students, parents, and teachers for the current school year.

- **An environment will be created for all students that will be conducive to learning the necessary skills to compete in life.**
- **The entire community must have genuine concern, compassion, mutual respect for students, and cooperation among school stakeholders.**
- **All children that enter our building are ten times better in matters requiring wisdom, knowledge, and balanced judgment.**
- **That our Teachers, Support Staff, and Administrators should be recognized for their efforts and progress in increasing student achievement.**
