

# Liberty Primary School

## Community Profile

### WHO ARE WE?

We are a school family of 100 staff members and 700 students, with 220 of those students in 3K and 4K. In recent years, our school-wide initiatives have resulted in making significant gains: moving our school report card rating from below average to excellent, decreasing discipline and our chronically absent rate, and improving participation of families at our school - a recent parent night brought in over 1,000 people! We've been recognized by the Ron Clark Academy and honored as a model school for the past 3 years.

### VISION

To be a leading model for early childhood education by bringing inspiration and innovation to our school, families, and community

### MISSION

To build a strong educational foundation through extraordinary learning experiences that support literacy, play, and social emotional well-being in order to transform lives in our community

### BUSINESS PARTNERSHIPS

### OUR BEST PRACTICES

#### Play

Play is developmentally appropriate for the children we serve. It is an essential part of a child's learning, growth, and development and it is the "language of children" (Vince Gowmon)

#### Conscious Discipline

A comprehensive brain research framework for actively immersing SEL skills and self-regulation into our schools, home, and communities through systematic changes in how we discipline ourselves and each other so we can be in relationship.

#### Personalized Learning

Personalized learning is creating a learning path based off student needs, abilities, interests, backgrounds, and experiences to create higher levels of achievement, engagement and ownership.
