## School Improvement Council

Our School Improvement Council experienced a strong renewal during the 2021-22 school year, with members of the faculty, administration, student body, and community coming together to exchange ideas and form plans to revitalize and enhance the experience for all stakeholders at Berkeley High School. We are grateful for the commitment and energy shown by those who volunteered their time and efforts to bring our school and community together to improve the BHS experience!

One of our major efforts this year was the implementation of the “Stag Shout-Outs,” a public way to recognize the influences of individuals whose actions made a difference in the atmosphere and effectiveness of our school. Highlighting these “Super Stags” is an important part of building the positive, can-do culture of Berkeley High!

A major challenge accepted by the SIC this year is finding new and creative ways to close the achievement gap in our school and to ensure that every student has the opportunity and support needed to succeed. The open discussions and ideas shared will help us to move forward with a more level playing field for our students and greater chances for success in their futures.
