

We are excited to unveil the newly established Timberland Early College High School (TECHS)! Through our agreement with Trident Technical College, students are able to earn dual credit toward both high school and college credit. Courses are offered at the Timberland High School campus taught by THS teachers who are both *highly-qualified* and *certified* college instructors and follow BCSD Instructional calendar. Courses are free of charge given students are enrolled in at least two courses. We are thrilled to offer these challenging and rigorous courses that will prepare students for college and career readiness.

### W International Update

Congratulations to the THS Adult Education Inaugural Welding Cohort, led by Instructor Randy Goodwin, as they demonstrated their skills at W International. This project couldn't have happened without the collaboration and support of multiple business and community partners, including W International, Berkeley County Economic Development, Berkeley County School District Career and Technical Education, Berkeley County Adult Education, Berkeley Electric Cooperative, and AirGas.

### Title I

We are proud to announce we have a full-time Math Interventionist to provide remedial Math instruction in small groups for students who have tested below basic in math. The teacher is above and beyond district allocation. We also have a full-time Instructional Coach to oversee the implementation of new learning, conduct professional development for teachers, teach model lessons, observe lessons, provide feedback to teachers, and ensure curriculum alignment with South Carolina standards.

## Personalized Learning

South Carolina Department of Education, Berkeley County School District and Timberland High School are dedicated to ensuring that all students graduate prepared for success in college, careers, and citizenship (Profile of SC Graduate). Berkeley County has elected to focus on the South Carolina Framework for Personalized Learning which includes four categories: student ownership, learner profiles, learning pathways, and flexible learning environment. With engagement and strategies, teachers and students will develop learner profiles which guide instruction, relationships, and feedback for student success. Timberland High School is in its exploratory year of Personalized Learning and will continue to build upon this framework in the coming years.
