

Sandy Run School – Report to Parents 2010-2011

Purpose: To provide the Sandy Run School community with information regarding the 2010-2011 school year.

It has been another successful school year here at Sandy Run. We learned early in the school year that we achieved AYP status for the fourth consecutive year. This is a feat that could not be accomplished without the hard work put forth by the students, parents and especially our entire faculty. We will continue to focus on providing a quality education in a safe and caring environment for many more years to come.

The SIC worked hand in hand this year with our PTO to help implement PBIS throughout our school. On May 16, 2011, Sandy Run School was named a PBIS blue ribbon winning school. This is a great accomplishment as we continue to provide positive behavior intervention to our entire student body. The PTO worked hard to provide the necessary materials, with input from the SIC, to make sure that we were able to implement PBIS at Sandy Run.

Technology has always been a cornerstone to the success here at Sandy Run. We were able to open up our third computer lab this year, which is housed within the media center. We have also continued to provide each child in grades 2-5 with their own personal computer. We were also able to equip each one of our buses with internet capability to help our entire student body access educational websites while on the bus.

Sandy Run has always been a successful school, due to the continuous support from various stakeholders throughout the community. We will continue to ask for support from all members of the community. Schools can only move forward when every stakeholder works together towards the common goal of helping the school achieve greatness.

Respectfully yours,

George Kiernan, Principal

Melinda Staley, SIC President
