

Vision and Mission Statement

We envision a school district where everyone works harmoniously in a safe and caring environment to help all students reach their maximum potential.

The mission of Calhoun County Public Schools, in unity with parents is to provide an environment conducive to learning that challenges all students to reach their maximum potential for success in a rapidly changing global society.

Sandy Run K-8 Goals

Goal 1: To increase overall student achievement on formative and summative assessments.

The Sandy Run K-8 family always strives towards a successful school year. Success is defined by how we meet the needs of the students we serve academically, emotionally, and socially. This school term we continued to set the bar high for student explorations and achievement. Students in grades 3-8 received Chrome books. Students and teachers have been working diligently as a cooperative learning group to establish blended learning experiences and flipped classrooms. This achievement was accomplished through a variety of intense professional development opportunities for teachers and well planned and authentic lessons for students. We will continue to set high academic goals for our students and seek the continuous collaboration with our parents. We also understand that students need a safe, inviting, and caring atmosphere to operate during the course of a day. Thus, we continue to use Positive Behavioral Interventions and Supports (PBIS). We begin each morning with breakfast in the classroom for all students, because we understand students need a nutritional start to the morning, and every instructional minute is significant. We love the enthusiasm students exhibit each day and we greet them each day with multiple paths for growth.
