2021-2022

## IMPROVING ENVIRONMENT

North Charleston High School (NCHS) has improved the academic and cultural environment for each student by reducing class sizes, offering students to recover course through our new Innovation Schools initiative. The initiative are conducted in learning PODS that provide co-teaching support for the student with a specialized curriculum.

This year we are proud to announce the number of students receiving an A, B, or C on the state End-Of-Course (EOC) exam has increase tremendously than previous years. The students received incentives for their exceptional work. We had a few student that not only did well but received a perfect score of 100% on the EOC exam.

North Charleston High School's administration, faculty, staff and School Improvement Council assure sending your child to NCHS is one of the best decisions one can make. There are outstanding teachers, qualified support staff to assist your child as well as your family and an environment which is conducive to learning. NCHS remains the right choice to educate students and is committed "To Graduating 100% of Our Students."

Henry Darby  
Principal

2021-2022

## PROGRAMS FOR SUCCESS

### COUGAR ACADEMICS

At North Charleston High School, instruction is centered around the three R's—rigor, relevance, and relationships. To support teachers with the implementation of the three R's, the NCHS Instructional Team has developed a system of support for our educators. Educators engage in personalized professional development, professional learning communities, coaching cycles, and data conversations to build collective efficacy. NCHS educators are using these supports to embed student-centered strategies such as personalized student trackers, small group instruction, and authentic assessments. These best practices help our students to own their own learning and become life-long learners.

### SCHOOL OF INNOVATION

North Charleston High School began a School Of Innovation initiative that utilizes a system where teacher teams are interdisciplinary in an effort to strengthen collective efficacy among staff, build interdisciplinary practices, and share best practices across content areas. NCHS focuses on rigor, relevance, and relationships.

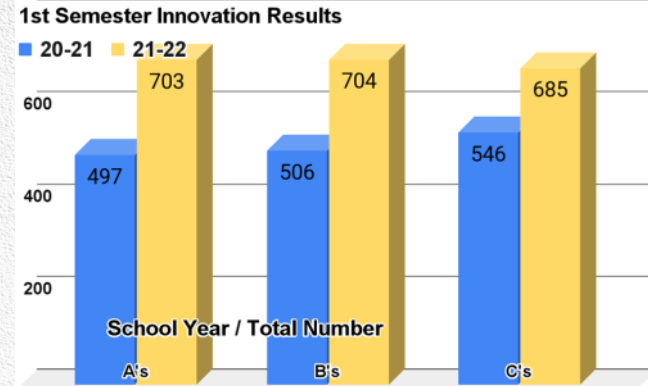

All state administered End of Course (EOC) Exams results increased during the 21-22 school year.

NCHS students have significantly increased the number of A's, B's, and C's earned from the 20-21 SY to the 21-22 SY.

STUDENTS ARE  
THE HEART  
OF OUR WORK!

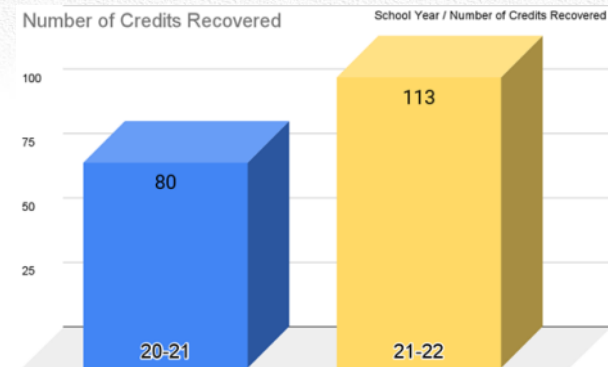

2021-2022

### CREDIT RECOVERY PODS

NCHS's Learning Pods engage at-risk students, including exceptional children, in a learning environment where learning is personalized based on the student's individual needs. Students are able to work on coursework at their own pace in order to ensure progress toward graduation. From 20-21 to 21-22, NCHS has seen an increase in the number of students who were successful in earning a course credit through credit recovery.

THE HEART  
OF OUR WORK!

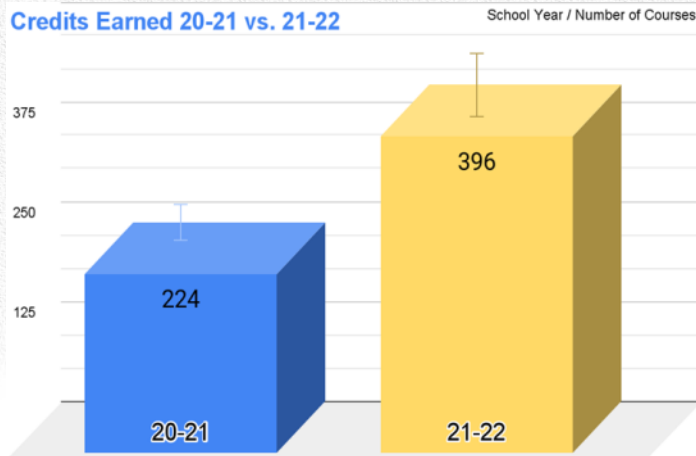

2021-2022

### ELL PODS

NCHS's English Language Learner (ELL) Pods empower ELL students to be immersed in an environment where the second language is acquired through the grade level content required for graduation. This model supports ELL's confidence in the development of language skills in an environment which is safe and specifically designed to engage key components of the speaking, listening, reading, and writing domains.

NCHS's ELL Pods support students in accessing grade-level content in order to help students to be college and career ready through rigorous and relevant experiences.

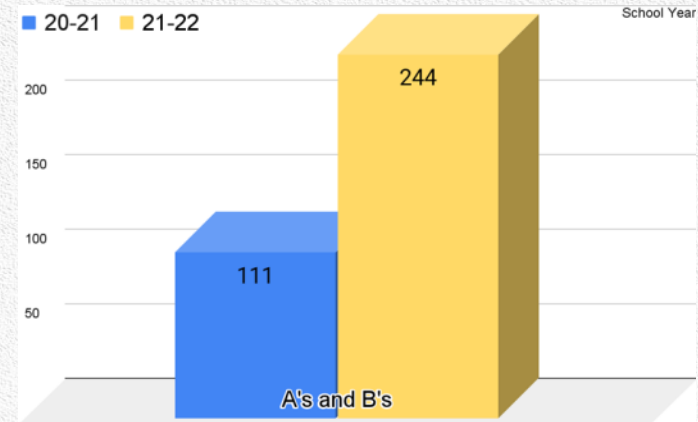

In 20-21, ELL students earned 224 credits in the first semester. In 21-22, our ELL students earned 396 credits in the first semester.

2021-2022

### **SCHOOL PSYCHOLOGISTS**

Ms. Nates works with selected students by which the school Psychologists listens to concerns about academic, emotional or social problems. Help students process their problems and plan goals and action.

### **MENTAL HEALTH COUNSELOR**

Provides various in school serviced such as conducting mental health assessments, developing individualized treatment plans, leading individual or group therapy sessions, running preventative mental wellness classes or workshops and making treatment referrals.

### **PARENT ADVOCATES**

Provides continuous support to our families through telephone calls, workshops and home visits. Provides specific outreach to parents in various forms to include workshops/trainings, one-on-one support, resource connections, etc. Participates in the development and management of the Title I, Priority Improvement budgetary plans and other special revenue allocated for North Charleston High School. Assist with graduation rate improvement through tracking, re-engaging students in diploma granting programs, assisting with truancy and numerous other tasks that aid in the students' academic success.

### **FAMILY AND COMMUNITY RESOURCE CENTER**

The new family and community center provides support services for students, parents, guardians, and our feeder schools. It offers engaging wrap-around services via support from our surrounding community, which consists of business partners, non-profits, and for profit organizations. Our goal is to work cohesively with school staff, parents and the community to develop and maintain positive home-school relationships.

OF OUR WORK!

2021-2022

### **FOOD PANTRY AND LAUNDROMAT**

North Charleston High School currently provides a free laundromat and food pantry that is available to our families. This service offering was made possible by full sponsorship from Moving With The Military in the 2021. Laundry services will be provided to the parents by appointment during normal business hours and on the 3rd Saturday of each month. Students have access to laundry service at anytime throughout the school day with the assistant of a parenting staff member. Food pantry services are provided on an as needed basis for our students and families, to include home delivery service when available.

### **COMBINED INTERVENTION**

Combined Intervention (CI) is a company which implements a systematic process of conflict resolution and mentoring intervention for students who are identified to be suspended or expelled. Based upon the discipline needs of the students, CI will collaborate with parents, students, teachers and administrators to resolve academic and social problems of identified students. Each student will be assigned a mentor for the period of the semester; there will be home dialog with students and parents; the hosting of community forums with major stakeholders of the community such as Ministers, business men and women, retired teachers and other professionals. Teachers and administrators will be provided with methodologies and strategies to assist students in the prevention of discipline problems within the classroom. SIC meetings will be attended to discuss strategies to assist with student achievement. Students will be assisted (tutored) in subjects of deficiencies; students will be instructed in financial literacy and multiculturalism. Parents and students will be assisted with transportation only as an imperative. Students will be trained in the etiquette of manners, character, and self-respect.

STEM is more than just the acronym, a curriculum or the stuff that is normally associated with the activities. Students use principles from the associate disciplines from the STEM acronym to problem solve. This allows students to use all of the disciplines that they normally learn in isolation to be applied in a variety of combinations. For example some problems will require the application of principles from the Science and Engineering discipline but nothing from Technology and Mathematics. A byproduct of using a STEM approach to educational instruction, (a derivative of project based learning) also builds a core set of competencies that I believe are the essential transferable skills (soft skills) that student need to be success. They are able to collaborate through a development process with a team of students which requires them to analyze a problem, decide what is needed to solve that problem, develop a solution, evaluate that solution and present it to groups or individuals. Additionally it allows students to solve real problems for real people that can be collected into a portfolio of work that prove that they can do what they say they can do. It is in these authentic experiences that students will find their passion and become the valued asset to the citizenry that every human being inherently strives to be.

North Charleston High School is excited to have a full-time STEM support team on campus to expose our students and the community to various STEM career opportunities.

Lynn Clegg, STEM Coordinator—North Charleston  
Cheryl Walden, STEM Community Engagement Specialist  
Antoinette Green, STEM Career Specialist

## SCHOOL IMPROVEMENT COUNCIL

South Carolina initiated School Improvement Councils through legislation as a means of restoring the influential voice of parents and community members in public education.

The Council has focused on coordinating a time and a place where students and parents could come to the school and learn more about applying for college and receive assistance in completing applications.
