Student Body Demographics

When Garrett Academy opened there was serious competition for the program of studies offered at the school. Over time the number of students from the more outlying constituent districts has grown smaller and currently the majority of our students are living in the Cooper River/District 4 zone. The diversity of students from across the county that has been part of our success has been reduced. Additionally, as all high schools implement the Education and Economic Development Act, courses previously only offered at Garrett Academy will become available in the home schools. The tables below show where our students travel from to begin each school day, their ethnicity, and the Free/Reduced Lunch status:

Student Body by Constituent District

Constituent District	# of Students	% of Student Body
1 – McClellanville	0	0
2 – Mount Pleasant	9	1
3 – James Island	5	1
4 – North Charleston	494	71
9 – Johns/Wadmalaw Islands	21	3
10 – West Ashley	84	12
20 – Peninsula Charleston	41	6
23 – Yonges Island/Hollywood	38	6

2013-14 School Improvement Council Annual Report

Dear Parents, Community, and Business Persons,

Our efforts at Garrett Academy of Technology remain focused on success for all students. As a comprehensive Title I Career and Technology high school we are measured by the Elementary and Secondary Education Act (ESEA) standards and accountability ratings of the South Carolina Annual School Report Card, the Career and Technology Education (CATE) Standards, and Title I. Our most recent evaluations form the foundation of this report.

The School Report Card compares us in any one given year to schools determined to have “students like ours” with the primary criteria the Poverty Index. This report expands that view retrospectively to show not just a comparison of Garrett Academy to those schools, but to historical performance at Garrett by comparing previous school report cards. As the data shows, Garrett Academy annually outperforms “high schools with students like ours” and so in our constant quest for excellence we must use other comparisons. On the 2013 annual report card Garrett Academy was again recognized as EXCELLENT in the absolute rating, the fourth time in the past five years. Our improvement rating maintained a rating of GOOD. Our performance on the 2013 School Report Card earned Garrett Academy yet another Palmetto Gold award. In addition we earned a gold award for Closing the Gap. These double golds earned us for the first time in Garrett Academy’s history a rating of a SUPERSTAR SCHOOL

Our core strategy continues to be to embrace the “Charleston Achieving Excellence Vision 2016” plan, and focus on each and every student as an individual. With our eyes on the 2014-2015 School Year we are facing new challenges. We continue to lose students from the other constituent districts as similar CATE opportunities are provided by home schools. The transition to the new Common Core Standards and the ending of the HSAP test are challenges our teachers are prepared to meet. We will be faced with significant funding reductions in many areas for the 2014-15 school year as we project have a lower enrollment number for the next school year. With the passage of the Education and Economic Development Act and the incorporation of career majors in all high schools, we must continue to reevaluate the relevancy of the overall program offerings at Garrett Academy and how we can best serve the students in the future and encourage the best young minds in Charleston County to spend their high school years with us at Garrett Academy.

As we strive to meet the goals laid out by Dr. McGinley and the school board in their Vision 2016 blueprint as well as the South Carolina goal being prepared to enter the work force ready to perform, we invite all the stakeholders, be they parents, alumni, business people, or simply thoughtful community members to join in our efforts to help our students attain the skills necessary to succeed in the 21st century.
