

R.B. Stall High School

Annual Report to Parents

Spring 2022

R.B. Stall High School is committed to serving the students, families, and community of North Charleston. Our mission is to ensure that all students are accountable for learning in every class, every day. Our continuous improvement as a school is driven by our School Improvement and MTSS Teams who implement strategies to accomplish achievement goals in the areas of graduation rate, instruction, college and career readiness, and student satisfaction.

Our PBIS Model (Positive Behavior Intervention School) helps to cultivate a safe climate and culture within the school. Warrior Strong is the messaging, and W.A.R.R.I.O.R. is the acronym that references the attributes we teach and model daily. W.A.R.R.I.O.R. stands for We Are Responsible, Respectful, Innovative, Optimistic, and Resilient. Students experience the daily practice of engagement, affirmation, and respect that comes through personal relationships with teachers and peers. These connections develop a culture within the school and classroom that fosters collaboration and mutual respect.

As we grew to now over 1600 students, we created smaller learning communities within the school. This fosters connectedness and belonging between peers and teachers. Each student is a member of a House. In their House, they attend their daily Tribe where they meet with their Advisor, known as their Tribe Leader. This Tribe Leader is their advisor for their entire high school career and works to ensure their success in meeting all their post secondary goals.

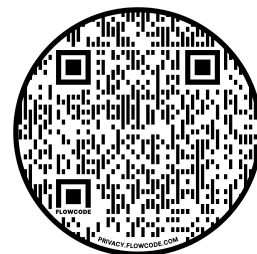

We returned to school after a year with significant amounts of virtual learning in response to COVID. We focused on the transition back to in person learning and worked to address any learning gaps that may have developed. Tier 2 and 3 student supports were implemented to address attendance, behavioral, or academic challenges by specifically designed teams of administrators, counselors, and support staff.

As we prepare all students to be college and career ready, our focus on rigor develops graduates with the highest levels of academic readiness. Students are challenged to demonstrate college readiness by enrolling in one of 15 Advanced Placement courses offered at R.B. Stall High School. Students are also challenged to think critically while participating in authentic work-based learning experiences. Our students have opportunities to participate in career and technology education in the areas of Marketing, Digital Art and Design, Finance, and newly expanded offerings through the Cooper River Center for Advanced Studies (CAS). We also offer student enrichment through our excellent athletics, JROTC, Student Government, Band, Chorus, Steel Drums and various other clubs and service organizations.

Finally, as we look to the 2022-2023 school year and beyond, R.B. Stall High School will continue to strive for continuous improvement. We are excited for the successes we have achieved and will continue to improve to better serve our students and school community. Our combined efforts will allow us to ensure every student becomes a college and career ready graduate!
