## Purpose

New Ellenton Middle STEAM Magnet School will be a school of academic excellence that fosters academic achievement through innovative teaching practices, which will include the infusion of Science, Technology, Engineering, Arts, and Math (STEAM) curricula, building strong community relations through the collaboration of all stakeholders, and facilitates the ongoing development of well-rounded, productive citizens.

## Title I

New Ellenton Middle STEAM Magnet School is a Title I school that receives federal funding based on the poverty index of our school. This funding is intended to assist in providing programs and educational opportunities to our students.

This year, Title 1 funds were utilized to pay a teacher's salary for class-size reduction, purchase laptops for students and teachers, instructional supplies, educational resources, student incentives, software licenses, professional development opportunities, parent communication software, and parental involvement activities.

## SIC Goals

In addition to supporting the NEMS Vision & Mission, the School Improvement Council has set the goal of constructing an outdoor classroom in the school's courtyard for outdoor teaching, lunch enjoyment, and outdoor STEAM programs.

## Student Achievement
