Message from SIC Committee

Northwoods Middle School is helping all students develop the world class skills needed for life and the characteristics of the Profile of the South Carolina Graduate by providing a safe, caring, and academically challenging learning environment. Northwoods Middle School continues to make gains in student achievement by providing opportunities for high school credits, reading interventions, reading enrichment, a school-wide intervention class, and multiple extra curricular activities. Additionally, out teachers are always seeking to learn new and effective strategies to use in the classrooms by attending weekly PDs.

We not only continue to make great progress academically, but we have also made huge strides in changing the climate and culture of the school. This year alone, we have implemented Restorative Practices, Second Steps, PBIS, and Capturing Kids' Hearts. We can proudly say that our students and staff are amazing. The students overcome numerous obstacles and the staff works tirelessly to help the students of Northwoods Middle School reach their full potential.

The faculty, staff, and members of the School Improvement Council, believe that the school, family, and community must share the educational responsibility of all of our students. We are confident that if we work together, our students will have the appropriate foundation and support in order to achieve academic success, not only at Northwoods Middle School, but also throughout their educational careers. Thank you for all of your support in helping develop our future leaders.
