

Our Vision

Hunley Park will provide a supportive and respectful environment where our students and community will strive for excellence.

Our Mission

Hunley Park will create a supportive child-centered environment with a rigorous curriculum. We will support the whole child socially, emotionally, and academically.

SCHOOL IMPROVEMENT COUNCIL

Hunley Park's School Improvement Council is an action committee of parents, community leaders, and teachers striving to improve our school.

HUNLEY PARK ELEMENTARY | Charleston County SCHOOL DISTRICT

ABOUT US

Academic Programs

One of our goals this year is to increase teacher leadership and student voices. Partnering with leading educators, a teacher from each grade level will participate in math professional development and lead their professional learning communities. They will support their colleagues' learning in the three mathematical shifts of conceptual understanding, procedural skills, and application.

Every day, students produce our morning broadcast highlighting school information and current events. Our media specialist and school counselor offer students opportunities to learn about broadcast journalism and production.

We focus on careers in science, technology, engineering, and mathematics (STEM) fields. We collaborated with the Naval Information Warfare Centers (NIWIC) to learn about geospatial technology and its use in several occupations, and we did hands-on activities with Boeing to learn about aeronautical engineering.

Honors and Awards

Our students are celebrated for their academic performance and are recognized as visionary scholars, receiving recognition from the principal.

Community Outreach

Our students give in various ways. For example, our student council, teachers, and staff have organized, collected, and distributed food to help support needy families. We support Susan G. Komen's Race for the Cure and have raised a generous amount of money and awareness to fund cancer research.

We also participate in the Back Pack Program, which provides a weekend's worth of food in a backpack for students who suffer from food insecurity.

SIC Annual Goals

- **Increase Parental Involvement:** We will continue to collaborate with our parent advocate to identify parents' needs and schedule parent nights to inform and empower our parents to advocate for their children. Additionally, we will continue our partnership with the PTO to increase membership. Increase
- **Student Achievement:** The SIC will continue to review school data and assist in the areas of improvement to meet student's academic needs, increase their self-efficacy, and encourage student goal setting. The SIC, along with the faculty and staff, will review the School Renewal Plan to ensure it addresses the areas in need of improvement.
- **Support Positive Behavior and Students' Social-Emotional Learning:** The SIC will continue to collaborate with the counselor to promote positive student behaviors by increasing the number of community partners that will help sustain our student school store.
