ACTIVITIES AT SCHOOL

Field trips are a great way to give educational experiences outside of the class room. They enhance the curriculum with real world experiences. They can also introduce scholars to new ideas and opportunities. Along with field trips, special events are planned to spark interest and creativity.

HOME OF THE HORNETS

Our mission is to educate and motivate, while preparing for success and not settling for anything less. All students. All day. All the time.

PBIS

Positive Behavior Interventions and Support

CAMPUS

St. James-Santee is home to Head Start, Elementary, and Middle School children. Head Start provides early, intensive support to enhance the physical, social, and intellectual development of children from six weeks to four years old. Our instructional focus continues throughout the 8th grade. In addition, middle school scholars have the opportunity to achieve high school credits in math, technology, and Spanish. We strive to provide a safe and effective learning environment for all our scholars.

DIGITAL LEARNING COMMUNITY

St. James-Santee has a one to one technology program. Every scholar has an electronic device. This allows scholars to move through instruction at an appropriate pace with challenging work at their level. Our scholars have access to many research-based and effective instructional sites which they access through Clever, a single sign-on educational platform.

St. James-Santee incorporates the PBIS approach throughout the day. We focus on creating a positive environment where all scholars will learn. Every scholar strives to be a Hornet HERO. Scholars are recognized for their HERO behavior at the end of each month.
