

November 2020

Dear Mitchell Families and Community Members:

The School Improvement Council worked on various activities during the 2019-2020 school year. The team had several accomplishments including implementing quarterly Parent and Volunteer awards, the Library Council shared ideas and events, and the team worked to plan large Family and Community events (Valentine's Dance, 5th Grade Dance, movie nights).

The SIC team partnered with Charleston Hope and planned events and activities to support Mitchell. In addition, the team helped coordinate PTA events and meet Title I requirements. The team also spent time last year problem-solving the renovation of the school and transition to the swing space at James Island.

The SIC team also spent time solving issues within the building including car line, cafeteria issues, rainy day dismissal, communication and attendance concerns. The team also looked at the big picture issues impacting the building including celebrations, schoolwide concerns, communication, and events.

During the Covid-19 shutdown, the team worked to ensure that all students were accounted for in some capacity. Students were provided devices and packets to support learning. In addition, staff made home visits to ensure that students were engaging in the learning throughout the months. Students were also provided meals throughout the time period.

The SIC Team made some substantial gains during the 2019-2020 school year.

Mitchell Elementary SIC Team
