The Jennie Moore Difference

Jennie Moore Elementary is a creative arts magnet school East of the Cooper. With our arts integrated program, instruction is based on the South Carolina State Standards and through the arts, learning is integrated across all areas of the curriculum. The arts program provides an opportunity for all children to learn and develop their creativity through Art, Music, PE, Drama, Dance, and Technology.

The Jennie Moore Experience

Learning For All Students:

In the twelfth year of implementation, Jennie Moore has continued to administer the MAP test to all students. Students are assessed in the areas of Reading, Math and Language. Teachers use this information to plan for and guide their instruction.

Teacher Collaboration:

Classroom teachers and special area teachers collaborate to provide students with integrated learning experiences. Grade level curriculum standards are infused in the arts program and the arts standards are infused in the classroom. Teachers and specialists work together to develop intervention programs for students needing additional assistance.

As a 1:1 iPad school, all students receive an iPad to use during their daily instruction. Each classroom is equipped with an interactive SMARTBoard for student use. Additionally, there are four computer labs in the building.
