COVID-19 Policies and Guidelines

Safety Policies and Procedures strictly enforced per CCSD Guidelines

CCSD's plan is grounded in two basic principles:

- 1) Students' academic, social, and emotional needs can best be met if students are in school.*
- 2) Students' and staff's health and safety must be a top priority.*

- *Visitors are not permitted to enter the building*
- *All students and staff must wear a face mask at all times while in the building*
- *For additional information please use the link below*

- Lowcountry Foodbank Pantry
- Utility/ Rent Assistance
- Father-Daughter Dance
- Mother-Son Dance
- Muffins for Moms
- Positive Parenting Chat
- Positive Parenting Pop-Up
- Monthly Event Calendars
- Weekly Updates provided on recorded calls

Student Achievement

Sanders Clyde Elementary MAP Progress:

MAP, or the Measure of Academic Progress, is a computerized adaptive test, which helps teachers, parents, and administrators improve learning for all students and make informed decisions to promote a child's academic growth. Sanders-Clyde Creatives Arts Elementary School students participate in this nationally recognized assessment during three testing windows each year, Fall, Winter, and Spring.

For the 2019-2020 school term, Sanders Clyde has a rating of **average**.

During the first few months of school (FALL & WINTER Testing Window), students in grades 2-5 participate in two MAP testing sessions to assess Reading and Mathematics.

Scores from students in second grade from the FALL to WINTER testing window indicated that 38% met their target growth in math and 36% of students met their target growth in reading.

Scores from students in third grade from the FALL to WINTER testing window indicated that 74% met their target growth in math and 51% met their target growth in reading.

Scores from students in fourth grade from the FALL to WINTER testing window indicated that 67% met their target growth in math and 35% met their target growth in reading.

Scores from students in fifth grade from the FALL to WINTER testing window indicated that 56% met their target growth in math and 42% met their target growth in reading.

Our scores indicate that we have the greatest gains in 3rd grade and the lowest gains in 2nd grade. Our goal for the SPRING testing window is to increase 10% or greater to our target goal in each subject area for each grade level, and to have 50% of our students make their growth target. In order to make this significant impact in our scores and overall student success we've established grade level math intervention programs, and have a greater focus on using formative assessment to drive instruction.

Programs and Incentives

- Reduced class size
