Angel Oak Elementary School

SCHOOL IMPROVEMENT COUNCIL

DIVERSITY IS CELEBRATED SIC MISSION

The mission of Angel Oak Elementary School is to prepare students to become confident, respectful, creative and critical thinkers; to provide a positive school and safe school environment. Through a dedicated staff, parent body, and a community outreach we will produce innovative and educational experiences to empower students to reach their maximum potential in an ever-changing world.

6134 Chisolm Road, Johns Island, SC 29455

What is the SIC?

South Carolina implemented School Improvement Councils as a means of improving public education in communities. The SIC is responsible for planning, monitoring and evaluating education at the school level, including assisting the Principal with the Annual Report. The council brings together parents, educators, students and community leaders and relies on their experiences and knowledge to improve the quality of education. Based on the school's performance, the school may receive a Gold or Silver award with a cash incentive from the SC Department of Education. State funding is very limited and the SIC relies on the support of local businesses and community leaders. If you would like to make a tax-free donation, please send checks payable to AOE, 6134 Chisolm Rd, Johns Island, SC 29455.

Message From The Principal

As the Interim Principal at Angel Oak Elementary, my mission is to work collaboratively with staff, parents and community members to ensure a nurturing and safe environment that leads to academic excellence. My commitment is that ALL students, regardless of their background will realize their potential as productive citizens and life long learners. We will achieve this goal through actively practicing the district values of Access, Results, Partnerships and Diversity. I strongly believe in partnering with parents and the community to create a positive learning environment for students. I encourage parents, grandparents and the community to come and volunteer at our amazing school!
