Johns Island ,S.C. 29455

At Angel Oak Elementary School we are an arts – infused community that is :

- ♦ Seeking Growth
- ♦ Discovering Talents
- ♦ Believing We Can

We Celebrate Diversity...

PERSONALIZED LEARNING

CCSD has developed a system that allows students to progress through the curriculum, reaching mastery on each standard. Personalized Learning adjusts the pace of learning and meets students at their challenge level, adjusts approach based on students needs, and engages the learner through his or her interests and experiences. It is a system built on the philosophy of a growth mindset and the belief that intelligence improves with effort, strategies and mentoring. Through a self-directed model, students take ownership of behavior and learning. They can articulate what they are learning, why they are learning it, how they will know they have learned it, and what they will learn next. Personalized Learning prepares students with the critical knowledge and 21st Century skills required to be college and career ready and to succeed in the global workforce.

Message from the Principal

Dr. Michael Griggs

Angel Oak Elementary is on a mission to fulfill our school vision. The vision highlights the Charleston County Personalized Learning initiative, Angel Oak Elementary School's partnership with the College of Charleston, and our commitment to developing a growth mindset among our teachers, students, and parents. Personalized learning provides each student the opportunity to move through the curriculum at his or her pace to achieve academic success. Our unique partnership with the College of Charleston's Talent Development Academy allows teachers to work in close collaboration with professors from the college. Teachers have learned how to observe the talents of our students while universally incorporating the strategies and curricula of the Gifted and Talented program. To achieve these high standards, the Angel Oak community has committed to changing our mindset. A fixed mindset maintains the status quo whereas a growth mindset encourages the individual to accept challenges, value effort, and strive to grow continuously. Our vision and plan will increase the rating of our school as all stakeholders work to develop a united community that seeks growth for all students.

Communities In Schools (CIS) of the Charleston Area, Inc. is a non profit organization that provides a nationally acclaimed dropout prevention program and surrounds students with a community of support, empowering them to stay in school and achieve in life. Now in its 26th year, CIS Charleston serves more than 13,000 students in 28 Berkeley and Charleston County Schools. For more information on CIS Charleston, visit: www.cischarleston.org
