

WSHS Celebrations

The school has made major progress in closing the achievement gap as evidenced by our increasing graduation rate and success on standardized testing such as HSAP and MAP. Teachers continue to examine data to identify strategies to accelerate and remediate each individual student on our campus.

We firmly believe that there is a direct correlation between students being present for class and their performance on standardized testing such as EOC, MAP, and HSAP as well as an increase in the graduation rate. Our graduation rate continues to improve as we strive to meet the district expectation and AYP status.

9th Grade MAP Data 2011-2012	Reading	Math	Language Arts
District Average	218	232	221
National Average	223	236	222
School Average	224	239	224

The purpose of the Wagener-Salley High School Freshman Academy is to encourage student success by helping to facilitate a smooth transition from middle school to high school, providing a structured atmosphere conducive to learning, and establishing high expectations for all freshmen.

Our Philosophy

The faculty and administration of Wagener-Salley High School believe that the school exists for the welfare of the students. It is our responsibility to help all students reach their highest levels of academic achievement as they master basic skills and prepare to function as productive members of a rapidly changing society.

We seek to provide a curriculum which envelopes opportunities for continuous intellectual, physical, moral, and social growth. We believe that all students should become an integral part of the total school program. In turn, these skills should provide the foundation for a self-reliant and self-confident adult who can function in a democratic society.

We believe that education is a shared responsibility among family, school, and community and that the worth of the school's program is determined by its value to the students and community. Therefore, we encourage parents and citizens to continually assess this value and to provide input in all facets of planning the school's program.
