Percent of Students Scoring Met or Exemplary

Strategies to Address Achievement Gaps

- **Professional Development**

Faculty are currently involved in trainings to implement computer based programs that are designed to increase student achievement in math and reading.

- **Small Group Support (Math & Reading)**

Teachers have been hired through Title One Funds to conduct small group and individual lessons in reading and math in grades 1, 2, and 5.

Students receive extra instruction in math on computer based programs.

- **Reading Support**

Title One funds are used to support students performing below grade level in reading through small group instruction provided by a teacher.
