Assistant Principal Kimberlie Lee
Guidance Juliana Johnson

Belvedere Elementary Mission Statement:

With teachers providing the groundwork for knowledge and awareness, based on South Carolina Standards, all students are encouraged to reach their greatest potential. This is the daily mission of Belvedere Elementary School. Creating a safe and intellectually stimulating environment enables us to attain this goal. Working collaboratively, parents, teachers, administrators, and the community will accomplish this mission.

Vision

We envision Belvedere Elementary as a safe instructional environment that is conducive to learning, where the stakeholders share responsibility for advancing the school's mission. While accepting individual's differences and abilities, the common goal of reaching academic potential is actively promoted by the cooperative school community.

Beliefs

- Parents, teachers, community, and administrators share the responsibility for advancing the school's mission.
- Every decision concerning the work of the school should reflect students' learning needs.
- Every student is an important individual with his/her own physical, social, emotional, and intellectual needs.
- Positive relationships and mutual respect among students, staff and parents enhances student's self-esteem.
- To promote maximum student learning, the school environment should be safe and physically comfortable.
- Students learn best when they apply their learning to meaningful concepts and demonstrate their understanding of knowledge and skills by being actively involved in the learning process.
