Strategies for Improvement

Strategies for improvement during the 2022-2023 school year are:

- ◇ Professional developments will focus on literacy, with an emphasis on Fountas and Pinnell classrooms, as well as technology.
- ◇ Data analysis will aid teachers with helping to determine student growth and learning goals for class instruction.
- ◇ Title I and ATSI funding will be used for intervention and academic assistance.
- ◇ Students experiencing any academic difficulties will participate in the MTSS program to help strengthen those academic skills.
- ◇ Parenting sessions will be held during the school year.
- ◇ School personnel, parents, and community agencies will work together in an effort to promote educational success for students.

Vision Statement

The vision of Corinth Elementary School is to prepare students academically, socially, and emotionally to transition into higher levels of education. We aim for each student to be able to work both independently and collaboratively with others to solve real-world problems using creativity and critical thinking skills. We aim to model and encourage students to uphold themselves to high moral standards. We strive for each child to receive the interventions and support necessary for them to be able to meet and exceed their individual goals in core academic areas each year.
