Mission Statement

We the faculty and staff along with parents are determined to build a positive, safe, and caring environment in a true family atmosphere to support what is best for the potential of each individual child.

SIC ANNUAL GOALS

Members of our SIC are committed to developing a comprehensive plan for technology and health.

The technology plan will incorporate the following activities that will allow students to sharpen their technological skills and prepare for higher education and the workforce:

keyboarding, internet, word processing, basic computer skills, and specific programs.

This committee is also committed to student’s well-being, health, and overall physical fitness. Our goal is to purchase playground equipment and develop outdoor activities to help build students’ upper body strength and endurance.

ADDITIONAL INFORMATION:

We are making great improvement across all grade levels. Teachers have high expectations for all students, for themselves, and other colleagues. All classrooms are rich with current and relevant resources, advanced technology, and research-based strategies for differentiating instruction. Teachers are engaged in on-going staff development through Professional Learning Communities, Colleges and Universities, and online webinars.

Parents and our community partners have whole-heartedly made a collaborative effort to support our vision and our mission. On behalf of the faculty and staff, we thank you with the utmost respect and appreciation.
