 Teresa Edwards (Assistant Principal), Ex-Officio

Vision of LES

As a family of learners, we aim to empower students with knowledge, compassion, and integrity to build a successful learning community.

Lions Empowered to Succeed

Our School

Lewisville Elementary School is a rural school located in the Richburg community, which is part of Chester County. We are home to 630 students in grades Pre-K through 5. We have two full-day pre-K classes. Our goal is to promote teaching and learning through engaging, rigorous, and varied instructional strategies.

LES is a NetSCOPE Professional Development School with Winthrop University.

We help prepare future teachers. In turn, we receive professional development support from Winthrop University. We have a Winthrop Faculty-In-Residence assigned to our school who works with our teachers, and Winthrop interns to meet school and district goals. We are a Winthrop Partner School.
