

## World Class Skills & Life Career Characteristics

Schofield Middle School is helping all students develop the world class skills and the life and career characteristics of the Profile of the South Carolina Graduate by providing a challenging academic program for our students... Our school's purpose and direction is exemplified through the collaborative efforts of faculty, staff, students, parents, and community.

During the 2018-2019 academic year, our school focused on academic excellence and building a positive school culture. Teachers and administrators worked on student engagement, rigor and high expectations, and the use of data to drive instructional practices. In addition, teachers implemented STEM activities and the use of the engineering design process to meet the challenges of increasing the rigor and relevance of classroom instruction. Foreign Language and several other courses were offered as high school credit options. Through monthly guidance lessons, our school counselors provided character building for all students. Students participated in various community projects or project-based learning opportunities.

Schofield is ensuring a promising future for our students, by building upon the heritage started by Martha Schofield, our founder, who believed "Character building is our most important work." We thank you for your continued support in developing our future South Carolina Graduates.

## Academics

Schofield offers rigorous and challenging programs in Math, English, Science, and Social Studies as we prepare our students for high school studies and beyond. In the eighth grade eligible students can enroll in several high school credit courses including English I, Algebra I, Geometry, German I, and IT Fundamentals.
