Mission Statement

The mission of Greendale Elementary is to develop independent, responsible, productive individuals who are motivated to achieve lifelong success. Promoting a safe, secure, nurturing climate enriched with challenging experiences created through adequately funded programs with innovative materials and techniques guided by a **Strong school-parent-community team.**

Title I

Greendale Elementary is a title one school that receives extra funding based on the poverty index for the community.

Title one funds received were used to purchase instructional materials, professional development, technology, and employ several staff members. In addition, these funds help provide programs and educational opportunities to our students that they normally would not receive.
