## A Note to Parents

Dear Parents and Community Members,  
Our students have been exposed to a rigorous and challenging curriculum along with many experiences inside and outside of our classrooms. We are proud of our students because they have demonstrated great social responsibility and incredible academic growth.

We are pleased with the advances we're making in the area of STEAM. Rosenwald continues to evolve using PLTW modules and our grants to provide the best resources. Our students have selected one of four learning paths and work on those related activities weekly in STEAM Lab. Great students, teachers and parents make our school great!

Sincerely,  
Charlotte Cullipher, Chairperson  
Kim Mason, Principal
