## Student Achievement

Our school outlined our school having a Average score in the growth portion and Average score in the achievement category. We feel that a number of strategies that were developed from the School Renewal Plan process and AdvancEd process will help us to target certain sub groups. Specifically, we hope to see gains this year on our state testing in the area of language.

*“For more information, you may view Myschool’s “S.C. School Report Card” for the previous school year online at [www.ed.sc.gov](http://www.ed.sc.gov).”*

*Also, our school website is another great resource tool and can be found at <http://jacksonm.acps.schoolfusion.us>*

## History of School

Jackson Middle School is a rural public middle school located in Jackson, South Carolina. The school facility was built in 1955 due to the construction of the Savannah River Plant. The school in it's original form was built as a high school. It was converted to a middle school and opened the 1981-82 school year as Jackson Middle School. In 1989-90, major construction and renovation was completed which added the front office/classroom building. The original buildings were renovated. The band/music area of the school was refurbished in 2003. The new cafeteria was built in 2013. Our current school population of 335 comes from our feeder school, Redcliffe Elementary. Jackson and the surrounding rural areas of Beech Island and Petticoat Junction supply the student population.

## School Purpose Statement

“A student centered, technologically engaging learning community focused on STEM education to encourage the highest level of career and college preparation.”

## SIC Annual Goals

Our School Renewal Plan created with a multitude of stakeholders was created around school culture and creating a school wide STEM instructional focus. Our school renewal plan is uploaded to our website and hard copies can be found upon request of the principal at any time.

Our goals focus around:

- Creating a school wide common approach to learning that focuses around STEM literacy
- Focusing on sub groups by providing differentiated learning opportunities
